## **Bioethics Yearbook: Theological Developments in Bioethics: 1988-1990**

As the field of bioethics has matured, increasing attention is being paid to how bioethical issues are treated in different moral and religious traditions and in different parts of the world. It is often difficult, however, to get accurate information about these matters.

The *Bioethics Yearbook* Series provides interested parties with analyses of how such issues as new reproductive techniques, abortion, maternal-fetal conflicts, care of seriously ill newborns, consent, confidentiality, equitable access, cost-containment, withdrawing treatment, active euthanasia, the definition of death, and organ transplantation are being discussed in these different traditions and different parts of the world.

The first volume, and every second succeeding volume, will discuss developments in the Anglican, Baptist, Buddhist, Catholic, Eastern Orthodox, Hindu, Jewish, LDS, Lutheran, Methodist, Muslim, and Presbyterian Traditions. The second volume, and every second volume succeeding it, will discuss official governmental and medical society policies on these topics throughout the world.
