Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series) Bin Xiong, Peng Yee Lee

The International Mathematical Olympiad (IMO) is a competition for high school students. China has taken part in the IMO 21 times since 1985 and has won the top ranking for countries 14 times, with a multitude of golds for individual students. The six students China has sent every year were selected from 20 to 30 students among approximately 130 students who took part in the annual China Mathematical Competition during the winter months. This volume of comprises a collection of original problems with solutions that China used to train their Olympiad team in the years from 2009 to 2010. Mathematical Olympiad problems with solutions for the years 2002–2008 appear in an earlier volume, *Mathematical Olympiad in China*.

Contents:

- 2008–2009 China Mathematical Competition
- 2008–2009 China Mathematical Competition (Complementary Test)
- 2009–2010 China Mathematical Olympiad
- 2009–2010 China National Team Selection Test
- 2008–2009 China Girls' Mathematical Olympiad
- 2008–2009 China Western Mathematical Olympiad
- 2009–2010 China Southeastern Mathematical Olympiad
- 2009–2010 International Mathematical Olympiad

Readership: Mathematics students, school teachers, college lecturers, university professors; mathematics enthusiasts.

From reader reviews:

Kim Armstrong:

The book with title Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series) has a lot of information that you can understand it. You can get a lot of benefit after read this book. This specific book exist new expertise the information that exist in this publication represented the condition of the world today. That is important to yo7u to be aware of how the improvement of the world. This book will bring you throughout new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read this anywhere you want.

Michael Auten:

Don't be worry if you are afraid that this book may filled the space in your house, you will get it in e-book approach, more simple and reachable. This particular Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series) can give you a lot of close friends because by you investigating this one book you have matter that they don't and make anyone more like an interesting person. This kind of book can be one of a step for you to get success. This e-book offer you information that probably your friend doesn't realize, by knowing more than various other make you to be great individuals. So , why hesitate? We need to have Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series).

Candy Dixon:

What is your hobby? Have you heard this question when you got learners? We believe that that concern was given by teacher to the students. Many kinds of hobby, Every person has different hobby. So you know that little person such as reading or as reading become their hobby. You should know that reading is very important and also book as to be the factor. Book is important thing to add you knowledge, except your current teacher or lecturer. You see good news or update in relation to something by book. Many kinds of books that can you choose to use be your object. One of them is niagra Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series).

Louis Ono:

A number of people said that they feel weary when they reading a reserve. They are directly felt that when they get a half portions of the book. You can choose typically the book Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series) to make your personal reading is interesting. Your personal skill of reading proficiency is developing when you such as reading. Try to choose simple book to make you enjoy to study it and mingle the idea about book and studying especially. It is to be first opinion for you to like to start a book and go through it. Beside that the reserve Mathematical Olympiad in China (2009-2010):Problems and Solutions (Mathematical Olympiad Series) can to be your new friend when you're really feel alone and confuse with what must you're doing of that time.
