The works of Shakespeare remain a staple of the theatrical and academic worlds, yet even non-experts enjoy his works. On the television program "Jeopardy," for example, "Shakespeare" is a category at least once a week. *Bard Games* demands recognition of quotations, but always in the context of matching them with the speakers, so that less experienced readers have help, while the more ambitious can work independently. In addition, the quizzes are arranged roughly in order of difficulty, with the most challenging at the end of the book, while individual quizzes, too, move from easier questions to harder ones.
