By the grace of God, Black people have advanced in so many ways, and there are a multitude of doors of opportunity now open that were previously closed. Yet when you look at how far Black people have come as a race and compare that to how far the Black church has come and where they should be in today's society, it's easy to see that it continually falls short. Join pastor Leander Bridges in Building the Black Church as he uncovers seven curses that have been perpetuated over the years to explain this inequality. Using his own experience pastoring a number of Black churches, he details issues such as part-time ministers, too many churches, too little teaching, too little evangelism, and others, while offering hope for a brighter future. This book is necessary for pastors and churchgoers alike to find out what can be done to aid the Black church in rising to the place God intends it to be.
