Making the Most of Standards: The Sustainability Professional's Guide (D?Shorts) Adrian Henriques

The world of corporate responsibility standards can seem large and confusing. With so many different standards, it is often bewildering. Sustainability standards feed into a broad spectrum of other standards and finding the appropriate standard for your organization's needs is vital.

This short book cuts through the confusion. It explains:

1. The pros and cons of using standards to improve sustainability performance
2. The variety of standards out there
3. A map showing how some of the most prominent sustainability standards relate to each other
4. A decision tree to help with choosing the type of standard that will be most helpful to you
5. For some of the most influential standards, a thumbnail description of what they are actually about
6. Some tips for putting standards into practice.
