Religion and Moral Reason: A New Method for Comparative Study

Ronald M. Green

Religion and Moral Reason: A New Method for Comparative Study Ronald M. Green

Using the theoretical approach he introduced in his acclaimed *Religious Reason* (Oxford, 1978), and drawing on contemporary rationalist ethical theory as well as a variety of religious traditions and issues, Ronald M. Green here provides a simple, effective model for understanding the complexity of religious life. He shows clearly and convincingly that the basic processes of religious reasoning are the same everywhere and that they give rise, in perfectly understandable ways, to the rich diversity of religious expression worldwide. This is a major resource for courses in the philosophy of religion.
