El hombre humanizado: antropología estructural (Spanish Edition) Heinrich Rombach

Aunque todavía poco conocido para el lector español, el pensador alemán Heinrich Rombach constituye una de las aportaciones más originales e interesantes a la reflexión filosófica del siglo XX. En *El hombre humanizado*, el primero de sus libros que se traduce al español, Rombach abre caminos hasta ahora inéditos no sólo a la filosofía en sentido profesional y académico, sino, de manera mucho más amplia, a cualquier forma de reflexión antropológica que otorgue la primacía a lo dialogal e intercultural.

En efecto, en esta obra, Rombach pone de manifiesto que la realidad humana es un "acontecimiento concreativo" en que participan todos los seres humanos como individuos y como comunidad. De esta manera, es posible la aparición del "hombre humanizado" que, en la variedad de situaciones en las que incesantemente se encuentra, procede a su indentificación como hombre o mujer.

Esta obra no sólo permite acercarse a la concepción del ser humano de Rombach sino que constituye también el mejor texto para adentrarse en su filosofía y, especialmente, en su filosofar, puesto que para el autor la filosofía es una actividad, un proceso vivo, y no una construcción teórica cerrada e inamovible. La obra es el resultado de la compilación de las lecciones que Rombach impartió durante más de veinte años en la Universidad de Wurzburg y una muestra perfecta de su forma de entender y hacer filosofía.
