Maurizio Viroli

Machiavelli (Founders of Modern Political and Social Thought) Maurizio Viroli

This book presents a critical examination of Machiavelli's thought, combining an accessible, historically-informed account of his work with a reassessment of his central ideas and arguments. Viroli challenges the accepted interpretations of Machiavelli's work, insisting that his republicanism was based not on a commitment to virtue, greatness, and expansion, but to the ideal of civic life protected by the shield of fair laws. His detailed study of how Machiavelli composed *The Prince* offers a number of new interpretations and he further contends that the most challenging--and underestimated--aspect of Machiavelli's thought is his philosophy of life, in particular his conceptions of love, women, irony, God, and the human condition.
