Las cadenas musculares (Tomo VI). La cadena visceral (Bicolor): La cadena visceral (Bicolor) (Medicina nº 87) (Spanish Edition) Michèle Busquet-Vanderheyden

En este sexto tomo de la serie de las Cadenas musculares, Michèle Busquet emprende la descripción anatómica y el tratamiento de la cadena visceral.

Históricamente, es la primera vez que el plano visceral se integra en el funcionamiento músculo-esquelético. Este libro muestra hasta que punto resulta fundamental el hecho de tener en cuenta el plano visceral. En adelante, ya no podremos permitirnos truncar los razonamientos y análisis, y limitarnos únicamente al plano muscular.

"Vuestra formación es apasionante. El descubrimiento del papel de la cadena visceral es la coronación, y va más allá de los que podía imaginar. Vuestros cursos tienen el mérito de conciliar espíritu científico y tradición".

"Mi mayor agradecimiento al equipo de las Cadenas musculares, porque desde que he puesto en práctica mi nuevo saber, los resultados no se han hecho esperar: son impresionantes".
