**Chile. La construcción nacional. Tomo 2 (1830-1880) (Spanish Edition)** Varios Autores

Las décadas entre 1830 y 1880 constituyen un periodo de consolidación en el proceso de construcción del Estado de Chile, iniciado con su independencia de España en 1818. La estabilidad política, al amparo de la Constitución de 1833, permitió un florecimiento de la cultura, las artes, las letras y la educación, todo lo cual cimentó y reforzó la identidad nacional. Los triunfos tanto en la guerra contra la Confederación Perú-Boliviana como en la del Pacífico incentivaron este proceso de consolidación nacional e inserción internacional. En términos económicos, el auge de la minería y la apertura al comercio exterior fueron importantes factores de desarrollo del país. La colección América Latina en la Historia Contemporánea es uno de los proyectos editoriales más importantes de las últimas décadas y una aportación original y novedosa a la historiografía sobre América Latina en la que han participado más de 400 historiadores de diversos países. Presenta una visión plural y accesible de la historia contemporánea de las naciones latinoamericanas - incluyendo aquellas otras, europeas o americanas, que más han aportado a su materialización- y revela las claves políticas, sociales, económicas y culturales que han determinado su trayectoria y el lugar en el mundo que hoy ocupan.
