Who Ordered the Universe? Evidence for God in unexpected places Nick Hawkes

Dr Nick Hawkes gathers evidence from science, history, and mathematics to seek out the signature of God. By surveying the various fields of study, he gathers a mass of evidence, concluding that faith in God is reasonable and that the evidence invites it. Addressing the big questions of origins and meaning, Hawkes considers the cosmos and the arguments for a Creator behind creation. He looks at biology, and the ideas of Darwin and Dr Richard Dawkins. He examines the significance of suffering and the phenomenon of mathematics – the code by which we understand how things work. He sifts through history and how it has been ‘molded’. He considers the nature of truth, and whether it is ever knowable, and if so how; and he takes a long, hard look at ideas about the afterlife. What we believe is important. It becomes our identity, something we stake our very lives upon. *Who Ordered The Universe?* is essential reading for those battling with identity and their place in the world. It is the ideal gift for a non-Christian friend.
