Errors in Organizations (SIOP Organizational Frontiers Series)

Errors in Organizations (SIOP Organizational Frontiers Series)

Despite the significance and prevalence of errors in organizations, there has been no attempt within the field of Industrial and Organizational Psychology to create a single source summarizing what we know regarding errors in organizations and providing a focused effort toward identifying future directions of research. This volume answers that need and provides contributions by researchers who have conducted a considerable amount of research on errors occurring in the work context. Students, academics and practitioners in a wide range of disciplines, i.e., industrial organizational psychology, medicine, aviation, human factors and systems engineering, will find this book of interest.
