## **Teoría social, espacio y ciudad (Spanish Edition)** José Luis Lezama

Los argumentos expuestos en esta nueva edición apuntan a tres aspectos centrales de la teoría social urbana en la actualidad. Primero, que la ciudad parece sobrevivir a la muerte que algunos teóricos de la globalización y la desterritorialización le decretan. Segundo, que la ciudad, más que resultar superflua, parece imprescindible para continuar con su antiguo, original y permanente papel en la gestión del cambio, la innovación y diversificación, fundamentales en toda la evolución social, y cruciales para el periodo actual de la modernidad. Tercero, que la ciudad ya sea como espacio construido, o como espacio animado y transfigurado por la acción humana, en su relación con el ser social, sigue ejerciendo un papel activo, de agencia y de influencia en las conductas sociales desplegadas en su territorio.
