*For 21st Century Educators – The New Rules Of Student Engagement*

Today's classroom demands teacher innovation and rejection of outdated practices, especially when someone tells you it's "always been done" a certain way. In this book, Josh Stumpenhorst details his methods for improving student outcomes with unorthodox thinking.

Content includes:

- Building relationships built on trust and respect, not fear and punishment
- Why you need to rethink homework and letter grades, which—in their current forms—are harming learning
- How to leverage technology by not treating it as a "shiny toy", but rather fully understanding their power as tools for massive progress
