George J. Joachim

Iron Fleet: The Great Lakes in World War II (Great Lakes Books Series) George J. Joachim

Iron Fleet focuses on the vital role played by the Great Lakes shipping industry during World War II. George J. Joachim examines how the industry met the unprecedented demand for the shipment of raw materials to meet production quotas during the war, when failure to do so would have had disastrous consequences for the nation's defense effort. Steel production was crucial to the American war effort, and the bulk shippers of the lakes supplied virtually all of the iron ore necessary to produce the steel.

In describing the evolution of the Great Lakes shipping industry during World War II, Joachim also explores the use of Great Lakes shipyards for the production of salt water civilian and military vessels, the role of the Great Lakes passenger ships in providing vacation opportunities for war workers, and the extensive measures taken to safeguard the Soo Locks and other potential targets from sabotage.
