**Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology)** R. K. Everett

Metal Matrix Composites: Processing and Interfaces provides a unified source of information on metal matrix composites (MMCs).

This book contains three parts. Part 1 provides the introductory overview, focusing on the historical perspective on the state of the composites field. The synthesis and processing details on some standard and novel techniques used to fabricate composites are discussed in Part 2. Part 3 is devoted to reviewing techniques in probing, modeling, and modifying composite interfaces.

Other topics include the diffusion brazing techniques, chemical vapor deposition, and in situ reinforcement of MMCs. The deformation processing of metal mixtures and optimizing properties of deformation-processed metal/metal composites are also covered in this text.

This publication is useful to engineering students studying the processing and interfaces of MMCs.

### **From reader reviews:**

#### **Will Guertin:**

With other case, little people like to read book Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology). You can choose the best book if you want reading a book. As long as we know about how is important the book Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology). You can add expertise and of course you can around the world by just a book. Absolutely right, mainly because from book you can know everything! From your country until eventually foreign or abroad you will find yourself known. About simple point until wonderful thing you can know that. In this era, you can open a book or maybe searching by internet gadget. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's examine.

#### **Nona Whitehouse:**

This book untitled Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology) to be one of several books that will best seller in this year, honestly, that is because when you read this e-book you can get a lot of benefit upon it. You will easily to buy this specific book in the book retail store or you can order it by using online. The publisher of this book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Touch screen phone. So there is no reason for your requirements to past this e-book from your list.

#### **Louis Trent:**

The actual book Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology) has a lot details on it. So when you read this book you can get a lot of advantage. The book was written by the very famous author. The writer makes some research previous to write this book. This particular book very easy to read you will get the point easily after reading this book.

#### **Earnest Koontz:**

A number of people said that they feel bored stiff when they reading a e-book. They are directly felt the item when they get a half parts of the book. You can choose the actual book Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology) to make your personal reading is interesting. Your skill of reading talent is developing when you similar to reading. Try to choose easy book to make you enjoy to learn it and mingle the impression about book and reading especially. It is to be first opinion for you to like to available a book and examine it. Beside that the reserve Metal matrix composites: Processing and Interfaces (Treatise on Materials Science and Technology) can to be your new friend when you're experience alone and confuse with the information must you're doing of these time.
