Romance Is My Day Job: A Memoir of Finding Love at Last Patience Bloom

Why isn't real-life romance more like fiction?

Patience Bloom asked herself this question, many times over. As a teen she fell in love with Harlequin novels and imagined her life would turn out just like their heroines: That shy guy she had a crush on would sweep her off her feet and turn out to be a rock star. Not exactly her reality, but Patience kept hoping.

Years later she found her dream job, editing romances for Harlequin itself. Every day, her fantasies came true—on the page. Her dating life, however, remained uninspired. She nearly gave up hope. Then one day Patience got a real-life chance at romance, but Sam lived thousands of miles away. Was it worth the risk? Could love conquer all?
