It's hard to find females in leading roles as athletes, coaches and owners in sports film story lines. With an abundance of male-focused stories, Hollywood continues to reinforce the association of athleticism with masculinity. Portrayals of women in prominent roles indicate social attitudes and values and--when looked at over time--also show what influence the women's movement has had on cinematic representation and social understandings. This discussion of sports film heroines begins with *National Velvet* (1944) and ends with *Secretariat* (2010). It addresses the question of whether these story lines do or do not empower women as characters and role models, while offering alternative cinematic choices that reflect the true and ever-growing history of women in sports.
