The Hunting Horn - What to Blow and How to Blow it L. C. R. Cameron

Originally published in 1910. There are few more evocative sounds than the distant call of the hunting horn. This illustrated booklet gives detailed instruction on the art of blowing the horn with notes on its history and the meaning of each separate call.

Many of the earliest field sports and hunting books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing many of these classic works in affordable, high quality, modern editions, using the original text and artwork.
