Decades have passed since Nick Seafort battled the vicious aliens. Now, in the fifth installment of the celebrated Seafort Saga, it's trouble on Earth that looms . . .

Everyone knows Nick Seafort as “the Fisherman”—the hero who stopped the merciless, fishlike aliens when they attacked Earth. *Voices of Hope* picks up with Seafort decades later, after he’s retired as the Secretary General of the United Nations. Despite his trappings of power, he has been unable to aid the so-called transpops, desperate people who live in the dangerous lower levels of New York City.

When Seafort’s son, Philip, follows a friend into the streets of New York, he encounters the transpop culture—one evolved to exist in the shadows and operate with ruthless efficiency. The trannies are a powder keg ready to blow, and a water shortage appears to be the spark to prove that humans can be far more dangerous than any outer-space alien. Long ago, Seafort had braved these violent streets to find his wife; now he must return to save his son.
