Accounting for Decision Making and Control Jerold Zimmerman

Accounting for Decision Making and Control provides students and managers with an understanding appreciation of the strengths and limitations of an organization's accounting system thereby allowing them to be more intelligent users of these systems. The Ninth Edition demonstrates that managerial accounting is an integral part of the firm's organizational architecture not just an isolated set of computational topics. Managers in all organizations throughout their professional careers interact with their accounting systems as it is both a source of information for decision making and part of the organization's control mechanisms.
