African American religions constitute a diverse group of beliefs and practices that emerged from the African diaspora brought about by the Atlantic slave trade. Traditional religions that had informed the worldviews of Africans were transported to the shores of the Americas and transformed to make sense of new contexts and conditions. This book explores the survival of traditional religions and how African American religions have influenced and been shaped by American religious history. The text provides an overview of the central people, issues, and events in an account that considers Protestant denominations, Catholicism, Islam, Pentecostal churches, Voodoo, Conjure, Rastafarianism, and new religious movements such as Black Judaism, the Nation of Islam, and the United Nuwaubian Nation of Moors. The book addresses contemporary controversies, including President Barack Obama's former pastor Jeremiah Wright, and it will be valuable to all students of African American religions, African American studies, sociology of religion, American religious history, the Black Church, and black theology.
