## **End Game: A Kirk McGarvey Novel** David Hagberg

Retired CIA assassin Kirk McGarvey faces the most formidable adversary of his long and storied career in *End Game* by David Hagberg. Langley is experiencing a series of gruesome murders. The CIA's own headquarters should be the safest spot on the planet, but a highly professional, violently psychopathic assassin, who hideously disfigures his victims, strikes without mercy.

The murders spread from Langley to a prison outside of Athens, where the first clue to what will become the *End Game* surfaces. A code carved into four copper panels of the legendary statue in a courtyard at CIA headquarters, known as Kryptos, predicts the means and the terrible necessity for the serial killings.

Before the first Iraq war, something horrifying was buried in the foothills above the oil city of Kirkuk. It will not remain buried forever.

Only Kirk McGarvey, Pete Boylan, and the CIA's odd-duck genius, Otto Rencke, can find the truth still buried in Iraq. A truth so devastating it could well ignite the entire Middle East into an unstoppable, apocalyptic war.
