## **La biodiversità (Farsi un'idea) (Italian Edition)** Marcello Buiatti

La storia del nostro pianeta è inscindibilmente legata alla storia della vita sulla terra e alla sua straordinaria varietà. Senza la biodiversità la vita scomparirebbe. Nell'immensa comunità naturale di cui facciamo parte essa infatti consente a tutti i suoi componenti di modificarsi moltiplicando le strategie di sopravvivenza per adattarsi alla mutevolezza dei contesti. L'autore analizza dapprima strutture e funzioni della biodiversità - a tutti i livelli tra loro interconnessi e complementari della biosfera - dalle molecole, agli organismi, alle specie, agli ecosistemi. Infine, in questa prospettiva integrata, affronta i rischi e i problemi creati dalla perdita di biodiversità, oggi in via di drammatica accelerazione sul pianeta terra, e il tema delle responsabilità che ne derivano per la nostra specie.
