However, things are about to change drastically in his life and in the country he has grown up in. He is told by a neighbor about the changes that are coming, but he dismisses the warning and doesn't believe that this could happen in this country. Get a behind the scenes peek at those who promote these changes and what their motivation is. There are always two sides to every change. Read how John makes some very tough decisions to protect his family and his families future. Some of these decisions can have very severe consequences. \$ \$ \$ \$ As you read this book, it is not too hard to imagine that this could happen to you and your family. This book is a must read for everyone who is concerned about the direction that this country is taking.
