Arduino Home Automation Projects

Marco Schwartz

Arduino Home Automation Projects Marco Schwartz
Automate your home using the powerful Arduino platform

About This Book

- Interface home automation components with Arduino
- Automate your projects to communicate wirelessly using XBee, Bluetooth and WiFi
- Build seven exciting, instruction-based home automation projects with Arduino in no time

Who This Book Is For

If you want to build your own home automation systems wirelessly using the Arduino platform, this is the book for you. You will need to have some basic experience in Arduino and general programming languages, such as C and C++ to understand the projects in this book.

What You Will Learn

- Connect home automation sensors to the Arduino platform
- Use the XBee technology to build low-power wireless motion sensors
- Interface a relay with Arduino to control devices in your home
- Utilize Wi-Fi to control a lamp remotely
- Employ Bluetooth and Arduino to measure the temperature remotely
- Send energy consumption data to the cloud
- Hack an existing home automation device using Arduino

In Detail

The Arduino platform is used by more than one million people around the world to prototype electronic systems. It is the perfect platform to use to build home automation systems, as it allows you to build your own motion sensors, control lamps remotely, and control preexisting home automation devices. The Arduino platform also allows you to build wireless home automation systems using well-known technologies such as Bluetooth and Wi-Fi.

This book shows you how to use the Arduino tiny microboard to live like a king. The book covers several projects you can perform using the Arduino platform. The first few projects comprise the basics of home automation, such as building a wireless motion sensor, controlling a lamp remotely, and building a Bluetooth temperature sensor. Then, this book dives into the Internet of Things, helping you get a clear understanding of how to send measured data to the cloud. The book will wrap up by showing you how to communicate and control an existing device and build your own home automation system.

From reader reviews:

Eric Bass:

Have you spare time for any day? What do you do when you have considerably more or little spare time? Yeah, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a wander, shopping, or went to often the Mall. How about open or perhaps read a book titled Arduino Home Automation Projects? Maybe it is to become best activity for you. You realize beside you can spend your time along with your favorite's book, you can wiser than before. Do you agree with the opinion or you have additional opinion?

Lauren Barnett:

Do you have something that you enjoy such as book? The e-book lovers usually prefer to pick book like comic, limited story and the biggest some may be novel. Now, why not trying Arduino Home Automation Projects that give your enjoyment preference will be satisfied by simply reading this book. Reading behavior all over the world can be said as the way for people to know world a great deal better then how they react to the world. It can't be explained constantly that reading habit only for the geeky individual but for all of you who wants to possibly be success person. So , for all of you who want to start reading as your good habit, you are able to pick Arduino Home Automation Projects become your personal starter.

Richard Powe:

Many people spending their time by playing outside with friends, fun activity with family or just watching TV 24 hours a day. You can have new activity to pay your whole day by examining a book. Ugh, do you think reading a book will surely hard because you have to bring the book everywhere? It fine you can have the e-book, taking everywhere you want in your Smartphone. Like Arduino Home Automation Projects which is having the e-book version. So , why not try out this book? Let's see.

Joseph Wilds:

Some people said that they feel fed up when they reading a guide. They are directly felt it when they get a half areas of the book. You can choose the particular book Arduino Home Automation Projects to make your reading is interesting. Your current skill of reading skill is developing when you just like reading. Try to choose very simple book to make you enjoy to see it and mingle the idea about book and reading especially. It is to be initially opinion for you to like to start a book and go through it. Beside that the guide Arduino Home Automation Projects can to be your brand-new friend when you're feel alone and confuse in what must you're doing of their time.
