Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series)

Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series)

Brings Together Current Knowledge and State-of-the-Art Information on Indigenous Fermented Foods

Fermented foods and beverages span a range of root crops, cereals, pulses, vegetables, nuts, fruits, and animal products. Southeast Asia has a long history of utilizing fermentation in the production and preservation of foods, and is widely recognized for its prominent use. **Indigenous Fermented Foods of Southeast Asia** examines some indigenous fermented foods of Thailand, Vietnam, Indonesia, Malaysia, and the Philippines, focusing on the chemical, microbiological, and technological factors associated with their manufacture, quality, and safety. This text establishes a need for an adequate understanding of the fermentation process to ensure safe and reliable practices, as well as the consistent production of a quality product.

The authors describe the production, microbiology, biochemistry, nutritional value, and dietary roles of a wide variety of indigenous fermented foods of Southeast Asia. Emphasizing the microbiological and biochemical processes in fermentations and examining the factors that influence the development of the characteristic microflora and chemical changes induced, they accurately describe each process and critically evaluate the roles of microbes in the fermentation. The classification of products is based on their microbial ecology (i.e. the predominant microbes involved), and the text includes examples of every major category of fermented food. The book covers tempe, starter cultures, sweet/sour/alcoholic rice and cassava fermentations, alcoholic fermentations, soy sauce, *Bacillus* fermentations, and lactic acid bacterial fermentations of vegetables, durian fruit, rice noodles, meats, and sea foods.

This book answers a series of basic questions addressing:

- Dominant/desired microbes

- Suitable factors in processing and the environment
- Commonly present microbes
- Compounds utilized as major carbon and energy sources
- Sources of fermentable carbohydrates
- Main biochemical activities and chemical changes
- True yield of product per kilogram of initial raw materials
- Possible hazards associated with a product
- How possible hazards may be minimized or eliminated
- Research needs and opportunities

Indigenous Fermented Foods of Southeast Asia evaluates the state of scientific knowledge of the fermentations and identifies specific questions that need to be answered in order to promote the reproducibility, safety and future prospects of these fermented foods.

From reader reviews:

Arthur Lee:

What do you consider book? It is just for students because they're still students or this for all people in the world, what the best subject for that? Only you can be answered for that question above. Every person has several personality and hobby for each other. Don't to be obligated someone or something that they don't need do that. You must know how great in addition to important the book Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series). All type of book would you see on many options. You can look for the internet options or other social media.

Louis McCarthy:

Spent a free time and energy to be fun activity to accomplish! A lot of people spent their sparetime with their family, or their friends. Usually they doing activity like watching television, planning to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you wish to something different to fill your personal free time/ holiday? Might be reading a book can be option to fill your free of charge time/ holiday. The first thing that you ask may be what kinds of book that you should read. If you want to try out look for book, may be the guide untitled Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series) can be excellent book to read. May be it can be best activity to you.

Muriel Colvard:

Beside this specific Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series) in your phone, it might give you a way to get nearer to the new knowledge or information. The information and the knowledge you might got here is fresh from oven so don't be worry if you feel like an older people live in narrow town. It is good thing to have Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series) because this book offers to your account readable information. Do you often have book but you seldom get what it's all about. Oh come on, that wil happen if you have this in the hand. The Enjoyable agreement here cannot be questionable, including treasuring beautiful island. Use you still want to miss it? Find this book as well as read it from right now!

Richelle Johnson:

A lot of e-book has printed but it differs. You can get it by internet on social media. You can choose the most beneficial book for you, science, comedian, novel, or whatever by searching from it. It is named of book Indigenous Fermented Foods of Southeast Asia (Fermented Foods and Beverages Series). You can contribute your knowledge by it. Without making the printed book, it could possibly add your knowledge and make an individual happier to read. It is most important that, you must aware about publication. It can bring you from one destination for a other place.
