**The Choices Justices Make** Lee J. Epstein, Jack Knight

*The Choices Justices Make* is a groundbreaking work that offers a strategic account of Supreme Court decision making. Justices realize that their ability to achieve their policy and other goals depends on the preferences of other actors, the choices they expect others to make, and the institutional context in which they act. All these factors hold sway over justices as they make their decisions, from which cases to accept, to how to interact with their colleagues, and what policies to adopt in their opinions.

*Choices* is a thought-provoking, yet nontechnical work that is an ideal supplement for judicial process and public law courses. In addition to offering a unique and sustained theoretical account, the authors tell a fascinating story of how the Court works. Data culled from the Court's public records and from the private papers of Justices Brennan, Douglas, Marshall, and Powell provide empirical evidence to support the central argument, while numerous examples from the justices' papers animate the work.
