Understanding Evangelical Media: The Changing Face of Christian Communication

As long as there has been a church, there has been Christian communication--"people of the book" bearing "the good news" from one place to another, persuading, teaching and even delighting an ever-broadening audience with the message of the gospel.

Amid ongoing advances in technology and an ever-more-multicultural context, however, the time has come for a broad appraisal of the state of evangelical communications. Quentin Schultze and Robert H. Woods Jr. have assembled scholars from across the country to analyze and assess a wide range of media including

- radio
- popular music
- worship music and media
- television
- film
- periodicals
- books
- Internet
- church drama
- comics
- gaming
- theme parks
- advertising
- public relations
- merchandising

These shifting media, and the communications enterprise as a whole, are put in cultural and ethical perspective. Also addressed are Catholic and Jewish perspectives on the state of religious media.
